

COBRA® AIR SPACER (100PCS)

- Ensures ventilation - increases deck lifespan
- Suitable for Hybrid clips
- Facilitates and optimizes clip installation
- Black polypropylene
- 4 spacers supplied

Recycled polyamide ventilation wedge placed between board and joist compatible with hybrid clips

The Cobra Airspacer shim promotes ventilation between board and joist without affecting the fixing clip action and wood movements. It thus increases the deck's lifespan. 4 board spacers included for joints of 3, 4, 5 or 6 mm. Recycled polyamide, UV, heat and frost resistant. Design that integrates perfectly under Cobra Hybrid clips for easy and quick installation. Limits shear effect on the fixing screw. Compliant with DTU 51.4 requirements.

Environment

LIFETIME	> 20 years
GHG EMISSIONS	2.01 (GES)
RECYCLED MATERIAL	Polyamide
END OF LIFE RECYCLABILITY	100 %
