## The charm of aged wood

Fiberdeck® Vintage finishing boards are decorated in a way that closely looks like aged exotic wood, which has developed a patina over time. The wood fibres are in relief. The colours offered are close to natural shades. Like all Fiberdeck® decking boards, they are co-extruded to protect them from stains and discoloration. Maintenance is consequently reduced to a minimum. The finishing board must be fixed with Cobra® coloured WPC screws (pre-drilled).
