

FelixWood

WOODEN SLEEVE 26X46MM X 30CM FOR ALU. JOIST

- Hardwood and rot-resistant
- Reinforces the strength of the joist joints
- Quick and easy to install

To butt aluminium joists 30×50mm

The sleeve fits into the hollow profile of the 30×50mm aluminium joists and is fixed using self-drilling stainless steel screws. It reinforces the mechanical resistance at the junction points of the structural elements.

Environment

Characteristics

Finishing	Rough
Material thickness (mm)	26
	Decking
Installation type	To screw
Main material	Wood
