

LAMINATED BANGKIRAI JOIST 40X60MM - P418

- Bangkirai Tropical Hardwood
- Durability class 2
- Fingerjoint laminated, incl. V-grooves (P418)
- Kiln dried: 12% moisture content
- Use in conjunction with Bitudeck®

Yellow brown

The Bangkirai, or Yellow Balau, is a dense and durable wood that we have been importing for several decades with unique expertise. The majority of our wood comes from FSC certified forest concessions. The wood is carefully controlled, cut and dried on the island of Java according to Felixwood's quality requirements. The joist is made of laminated Bangkirai to give it perfect stability. It is necessary to cover the upper part with a sealing strip.

Environment

CERTIFICATION

Legal wood

Characteristics

Main material	Wood	Class of use	Classe 4
Specie	Bangkirai	Density (kg/m3)	910
Origin (country)	Indonesia	Modulus of elasticity (Mpa)	22940
Treatment	No treatment		Decking
Certification	Legal wood		
Scientific name	Shorea spp.		
Botanical family	DIPTEROCARPACAE		
Drying	KD 18 +/-2%		
Durability for fungus	durable		
Durability to termites	Very durable
