MODERN interlocking boards are made of co-extruded wood composite. They are UV-resistant and come with a 20-year guarantee against staining and discoloration. Their grooves give them a false clerestory appearance. They are also resistant to insect and fungal attack. MODERN boards are available in three colors: Dark Grey, Teak and Cedar. They can be combined with OPALE boards and decors. We recommend fitting every fourth board with an 11x20mm aluminium reinforcement.
