SCREW-IN FINISHING BOARD 22,5X138MM SE

- Co-extruded WPC skirting
- Stain and discoloration resistant
- 2 different faces

A multi-purpose finishing board

WPC finishing boards are available with 2 useful faces. One is smooth for a contemporary look, the other is reeded. The board has a matt surface and is solid for easy screwing. The 360° co-extruded protective layer effectively protects the boards against impacts and stains. The board can be used to create the contours of terraces, pool surrounds and stair treads for instance. The board must be fixed with Cobra® coloured WPC screws (pre-drilled).
