

## GEODECK (2X10M = 20 SQM)

- Prevents weed growth
- Draining
- Black, invisible under the structure
- 100 g / m<sup>2</sup>
- Rot-proof

### Draining geotextile to prevent weeds from growing under the terrace

Black opaque polypropylene geotextile felt preventing weed growth under the deck. Laid directly on the ground, backfill, gravel, soil or lawn. Water permeable, allows drainage directly into the subsoil. 100 gr/m<sup>2</sup>. Dimensions: 2mx10m, i.e. 20 m<sup>2</sup>. Allow an overlap band of approximately 10% between 2 felts. Tear resistance 0.413 kN.

### Environment

LIFETIME	> 20 years
GHG EMISSIONS	2.01 (GES)
RECYCLED MATERIAL	polypropylene
END OF LIFE RECYCLABILITY	0 %

# GEODECK (2X10M = 20 SQM)

## Characteristics

	<b>Fasteners</b>
Weight per gr (g/m2)	100
Main material	Polypropylene
Cutable	oui
