

BOSTON - EXOTICS COMPOSITE BOARD

- Touch and color close to natural wood.
- Unique aestheticism
- Possible combinaison with aluminum boards and decorative elements.
- Unmatched durability, no maintenance
- UV-resistant coextruded board

All the benefits of exotic wood without the drawbacks

As warm as teak boards and as durable as ipe, EXOTICS fence boards require no special maintenance and will retain their color for years. Combined with aluminum boards, the striking wood effect adds a touch of modernity and elegance to the fence

Environment

LIFETIME	> 20 years
GHG EMISSIONS	2.01 (GES)
END OF LIFE RECYCLABILITY	95 %
CERTIFICATION	FSC®-certified

Characteristics

Cuttable	oui	Density (kg/m3)	1170
Main material	WPC	Way of fixation	Vertical or horizontal installation
	Full	Useful height (mm)	150
	Fencing	Tongue/groove profile	oui
Certification	FSC®-certified	Cert. Product class	W9-1
Type of surface coextrusion	Mono-extrusion	Certificate group code	FSC TRANSFER
Pigmentation	Random pigmentation		
Type of profile	Square hollow profile		
UV resistant	oui		
Stain resistant	oui
