BROOKLYN DECKING 22,5X138MM

- Smooth side - wood grain side
- 360° Co-extruded WPC
- Hidden fixation with Cobra Hybrid 8-18 clip
- Demountable
- Very low maintenance

Proven stability and durability

Brooklyn composite decking comes with 2 useful faces. One is smooth for a contemporary look, the other one has a wood grain printed in the mass. Both sides are brushed to give a matt surface. The round hollow shape saves material while ensuring excellent rigidity. The 360° co-extruded protective layer effectively protects the board from knocks and stains. Installation is carried out using Cobra® 8-18 removable clips.
