Proven stability and durability

Fiberdeck® Brooklyn Premium composite decking boards have a solid core for greater durability. They are available with 2 useful faces. One is smooth for a contemporary look, the other one shows a wood grain. Both sides are brushed to give a matt surface. The 360° co-extruded protective layer effectively protects the board against knocks and stains. This reduces maintenance to a minimum. Installation is carried out using Cobra® 8-18 removable clips.

Environment

CERTIFICATION

FSC®-certified

Characteristics

WPC Composition	40% HDPE + 60% Wood fibers	Linear mass (kg/m)	3.53
Main material	WPC	Hardness (Brinell) N/mm2	8.2
Installation type	Installation with clips	Modulus of elasticity (Mpa)	3720
Certification	FSC®-certified	Bending strength	36.3
Type of surface coextrusion	Co-extrusion	Thermal expansion	1,15mm / Delta 30°C
Pigmentation	Random pigmentation	Thermal conductivity (W/m*K)	0.19738
Type of profile	2 faces Solid profile	Reversible profile	oui
UV resistant	oui	Joist spacing (mm)	400
Stain resistant	oui		Decking
Density (kg/m3)	1170	Cert. Product class	W9-1
