

Fiberdeck®

**HARMONY DECKING
22,5X138MM**

- Product voordelen
- R12 slip resistance
- 360° co-extruded composite
- UV-resistant
- Invisible fixing with Cobra Hybrid 8-18 clip

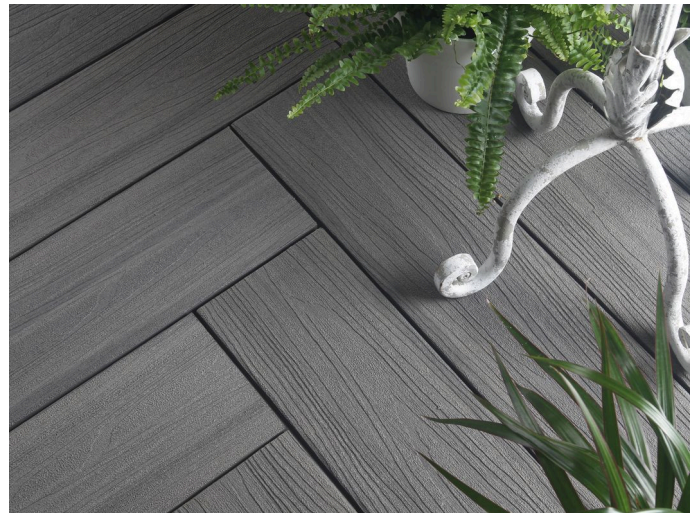

Indian Summer Ocean grey Cedar

A durable and non-slip surface

Harmony composite decking boards feature a co-extruded protective layer with a new "Hardcap" technology that protects the boards even more effectively against impacts and stains. This reduces maintenance to a minimum. They imitate the texture of exotic woods to perfection, with 2 useful faces. One imitates the wood grain, the other is smoother like exotic wood. They are installed using Cobra® 8-18 removable clips. Harmony 24×38mm straight-edged screw-down strips can be used for finishing.

Environment

LIFETIME	> 20 years
CERTIFICATION	FSC®-certified

Characteristics

WPC Composition	40% HDPE + 60% Wood fibers	Linear mass (kg/m)	3.6
Main material	WPC	Modulus of elasticity (Mpa)	4374
Installation type	Installation with clips	Thermal expansion	1,15mm / Delta 30°C
Certification	FSC®-certified	Reversible profile	oui
Type of surface coextrusion	Co-extrusion	Joist spacing (mm)	400
Pigmentation	Random pigmentation		Decking
Type of profile	2 faces Solid profile	Cert. Product class	W9-1
UV resistant	oui	Certificate group code	FSC TRANSFER
Stain resistant	oui		
Density (kg/m3)	1170
