

## RUBBER PAD (1PC)

- Isolate the support rail from the wall
- Conform to technical installation rules
- 5mm thickness

## Thermal break wedge

This PE wedge avoids heat transfer between wall and frame. It is positioned between the rail and the wall.

## Environment

LIFETIME	> 20 years
GHG EMISSIONS	2.01 (GES)
RECYCLED MATERIAL	Polyethylene
END OF LIFE RECYCLABILITY	90 %

### Characteristics

Main material	Polypropylene
Installation type	To screw
Kind of installation	Direct fixation to support (screws, anchors, etc.)
	Fasteners

### Logistics Data
