

BITUDECK 7,5CM X 10M

- Increases lifespan of wood structure
- Self-adhesive bitumen elastomer
- Tear resistant
- 1.5 mm thickness
- Compliant with DTU 51.4 requirements

Self-adhesive bituminous waterproofing strip to protect wooden joists

Self-adhesive bituminous waterproofing tape protecting wood joists. The bitumen wraps around the screw at the penetration point into the joist to preserve waterproofing. Increases the lifespan of joists and the structure. 1.5 mm thick tape. Width 75 mm. Length 10 m. Strong adhesive power on the support. Inner face in HDPE. Resistant to tearing, deformation, and temperature variations, -20°C / +70°C. Compliant with DTU 51.4 requirements.

Environment

LIFETIME	> 20 years
GHG EMISSIONS	0.04 (GES)
RECYCLED MATERIAL	Bitume
END OF LIFE RECYCLABILITY	0 %

BITUDECK 7,5CM X 10M

Characteristics

Installation type	To glue
Material thickness (mm)	1.5
Main material	Bitumen elastomer
	Fasteners
Cutable	oui
UV resistant	oui
Resists temperature variations	oui
