

RUBBER PAD - WEDGE 8X60X90MM (48PCS)

— Rot proof

— Recycled rubber

Rot proof recycled rubber pads for wedging joists and insulating them by drainage under the structure

Rot proof recycled rubber pads for wedging joists. This wedging also ensures water circulation and drainage under the structure. Insulated and protected against moisture, the structure will last longer. A practical and economical solution. Hardness: 55A. Density: 730 kg/m³.

Environment

LIFETIME	> 20 years
GHG EMISSIONS	0.32 (GES)
RECYCLED MATERIAL	rubber
END OF LIFE RECYCLABILITY	100 %

RUBBER PAD - WEDGE 8X60X90MM (48PCS)

Characteristics

Main material	Rubber
Quantity per Sales Unit	48
Empilable	oui
	Fasteners
