WPC CLADDING WEO® 60 (D CLASS)

- Outstanding natural wood imitation
- Contemporary appearance
- Stable color in time
- Multi-chromatic matt colour

A contemporary cladding system

WEO®60 cladding is a larger slatted profile than WEO35. Trendy thanks to the rhythm it lends to facades, it also reproduces a striking natural look : the colors are composed of several multi-chromatic pigments that mix randomly to reproduce the grain of a wood strip. UV resistant, the original intense color is guaranteed over time.
