WPC CLADDING WEO[®] 60 (E CLASS)

- ◆ OUTSTANDING NATURAL WOOD IMITATION
- ◆ CONTEMPORARY APPEARANCE
- ◆ STABLE COLOR IN TIME
- ◆ MULTI-CHROMATIC MATT COLOUR

◆ A contemporary cladding system

WEO[®]60 cladding is a larger slatted profile than WEO35. Trendy thanks to the rhythm it lends to facades, it also reproduces a striking natural look : the colors are composed of several multi-chromatic pigments that mix randomly to reproduce the grain of a wood strip. UV resistant, the original intense color is guaranteed over time.
