

## RUBBER PAD - WEDGE 8X90X90MM (24PCS)

- Recycled rot-proof rubber
- Easy and practical shimming
- Promotes ventilation and drainage
- Cuttable

### Rot proof recycled rubber pads for wedging joists and insulating them by drainage under the structure

Rot-proof recycled rubber pads for joist shimming. This shimming also ensures water circulation and drainage under the structure. Insulated and protected against moisture, the structure will have a longer lifespan. Practical and economical shimming solution. Hardness: 55A. Density: 730 kg/m3.

### Environment

LIFETIME	> 20 years
GHG EMISSIONS	0.32 (GES)
RECYCLED MATERIAL	rubber
END OF LIFE RECYCLABILITY	100 %

# RUBBER PAD - WEDGE 8X90X90MM (24PCS)

## Characteristics

Main material	Rubber
Quantity per Sales Unit	24
Height adjustable	oui
Empilable	oui
	Fasteners
