

## COBRA® HYBRID 8-18 (90 CLIPS+SCREWS)

- ◆ HIGH TEAR-OUT RESISTANCE
- ◆ COMPATIBLE WITH MOST DECK BOARDS ON THE MARKET
- ◆ PRE-INSTALLED SCREW – 3 SIZES AVAILABLE: S/M/L
- ◆ SELF-DRILLING – FASTENING IN WOOD OR ALUMINUM
- ◆ NO PRE-DRILLING REQUIRED – INCL. SCREW TIP

### ◆ Universal bi-material clip for composite and thermo-modified wood deck boards

Dual-material clip consisting of a stainless steel wing with claws and a high-density polypropylene honeycomb body. Pre-fitted with a high-performance C1 self-drilling stainless steel screw. Suitable for composite wood decking. Universal, it is compatible with reversible boards 20 to 24 mm thick and up to 150 mm wide. Fastening to wooden or aluminum joists. Respects and controls the movement of the decking. Quick and easy installation. Local dismantling possible.

### ◆ Environment

LIFETIME	> 20 years
GHG EMISSIONS	6.885 (GES)
RECYCLED MATERIAL	Stainless steel
END OF LIFE RECYCLABILITY	0 %

# COBRA® HYBRID 8-18 (90 CLIPS+SCREWS)

## ◆ Characteristics

Quantity per Sales Unit	90	Screw length (mm)	35
Main material	Stainless steel	Screw diameter(mm)	4.2
Finishing	Coating	Prepositioned screw	oui
Screws included	oui	Selfdrilling screw	oui
Stainless steel grade	AISI 410 / C1	Support material	Wood or aluminum
Deck board type	WPC	Removable	oui
null	Fasteners	Screwdriver bit provided	oui
Main material level 2	HDPE		
Stainless steel screws	oui		
Type of screw recess	Torx T15
